BP-54 Survey of Canadian Portfolio Investment

Purpose of the Survey

The purpose of the Survey of Canadian Portfolio Investment is to determine the amount and types of securities owned by Canadians. The survey is conducted on a security by security basis.

The data will be used to compile the portfolio investment of Canada's balance of payments and international investment position statistics. The survey is being conducted in co-ordination with other countries to facilitate international data comparability. The survey is also designed to generate feedback on Investment Fund strategies related to industrial distribution, type of financial instrument and geographical distribution.

Collection Authority

The information requested is collected under the Statistics Act, Revised Statutes of Canada, 1985, Chapter S19. The survey is conducted on an annual basis.

Confidentiality

Information collected under the Statistics Act is treated in strict confidence and is specifically exempt from being released under the Access to Information Act.

How to report

Data would preferably be submitted through electronic mail, on diskettes, magnetic tapes or cartridge in a single file using Excel, Lotus, or ASCII with delimiters. To assist respondents in identifying the information requested, Statistics Canada developed a standard record layout (see next page: 'Recommended table structure').

Warning: Information sent via facsimile or electronic mail, when in transit, may encounter risk of disclosure. Upon receipt, Statistics Canada will confirm the reception of your submission. Thereafter, Statistics Canada will assure the confidentiality of the information.

What to report

Update of the list of funds as well as contact name and details (pre-print information).

Detailed holdings of your funds in a single electronic file.

Please return the required information to:

Statistics Canada
Balance of Payments Division
Survey of Canadian Portfolio Investment (SCPI)
22nd floor, R.H. Coats Building
Ottawa, Ontario K1A 0T6

Attention: Bruce Nichols or Éric Boulay

E-mail <u>cpiabop@statcan.ca</u>
Fax 1-613-951-9031

If there are questions regarding the survey, please contact Bruce Nichols at (613) 951-5665 or Éric Boulay at (613) 951-1872 or use our toll free number (866) 765-8143.

RECOMMENDED TABLE STRUCTURE

** For more information about the content of the fields, see instructions on the following pages. **

Field	Field Name	Data Type	Width	Decimals
1	Code or name of the Fund (M)	Alphanumeric	6	
2	Sequence Number	Numeric	6	
3	Security Identification Code	Alphanumeric	12	
4	Stock Market Symbol	Alphanumeric	10	
5	Security Type (M)	Numeric	2

(M):	Mandatory Field	TOTAL	234	12

CONTENT OF FIELDS

- Field 1: *Code or name of the fund -* Enter the name or code of the fund.
- Field 2: Sequence Number Starting at 1, sequentially number each record. The last record should have the same sequence number as the total number of records.
- Field 3: Security Identification Code Enter the security identification code. For example, enter the CUSIP, SEDOL, or ISIN code. Please refrain from using internally generated codes.
- Field 4: Stock Market Symbol If available, enter the stock market symbol of the security.
- Field 5: Security Type Indicate the type of security according to the following code-set¹:
 - 1 Equity (including warrants and rights)
 - 2 Debt and debentures
 - 3 Money market instruments
 - 4 Options
 - 5 Futures
 - 6 Forwards
 - 7 Cash
 - 8 Mortgages
 - 9 Real estate
 - 10 Units of pooled, mutual and investment funds
 - 11 SWAPS
- Field 6: *Name of Issuer* Enter the name of the issuer of this security.

Ex: Government of Canada

Ex: ABC Corporation

¹ Please see appendix 1 for a more detailed description of these categories.

Field 7: Security Description - Provide pertinent descriptive information. Examples follow: For equities:

Ex: ADR, Subordinate voting

Ex: Preferred convertible shares

Ex: Partly paid shares.

Ex: IBM Common shares

For debts:

Ex: Convertible debenture

Ex: Floating rate bond

For money market instruments:

Ex: Treasury bill

For options:

Ex: Call or Put

For futures:

Not needed

For forwards:

Ex: Buy British Pounds, Sell US

Field 8: *Industrial Description* - Pertinent descriptive information. If possible, please use code-set below:

Sector	Description
A	Food, Beverage and Tobacco
В	Wood and Paper
С	Energy
D	Chemicals, Chemical Products and Textiles
Е	Metallic Minerals and Metal Products
F	Machinery Equipment (except electrical machinery)
G	Transportation Equipment
Н	Electrical and Electronic Products
I	Construction and Related Activities
J	Transportation Services
K	Communications
L	Finance and Insurance
M	General Services to Business
N	Government Services
О	Education, Health and Social Services
P	Accommodation, Restaurants and Recreation Services
Q	Food Retailing
R	Consumer Goods and Services

Field 9: Market Value - in Canadian dollars

For equities (including warrants and rights), enter the price (field 10) times the number of shares (field 11) converted in Canadian dollars.

For debts and the money market instruments, enter the price expressed as a percentage (field 10) times the face value (field 11).

When reporting a negative position for a security, enter "R" in **field 21**. A negative position occurs when securities acquired under repurchase or security-lending arrangements are subsequently sold to a third party.

For options, enter the number of contracts times the contract size times the premium.

Option on stock

Example: 50 IBM Call Jan97 at 130 at 8³/₄ (market price at date of survey)

Calculation: Number of contracts (50) X contract size (\$100) X premium

 $50*100*(8\frac{3}{4}) = $43,750 \text{ US}\$ \rightarrow 59,763 \text{ Cdn}\$ (43,750*1.366)$

Option on index

Example: 20 S&P 500 Call May 655 at 14½ (market price at date of survey)

Calculation: Number of contracts (20) X contract size (\$500) X premium

 $20*500*(14\frac{1}{2}) = $145,000 \text{ US} \rightarrow 198,070 \text{ Cdn} (145,000*1.366)$

Option on currency

Example: Trading on Philadelphia Exchange

100 Call British Pounds Dec 166 at .70 (market price at date of survey)

Calculation: Number of contracts (100) X contract size (\$31,250) X premium

 $100*31,250*(.0070) = $21,875 \text{ US} \rightarrow 29,881 \text{ Cdn} (21,875*1.366)$

For futures:

<u>Bond contracts</u>: Enter the number of contracts times the contract size times spot price less exercise price (strike price).

Example: 20 / 5 year US treasury.

Strike price or exercise price = 98.25 spot price = 97.75

Calculation: number of contracts (20) X contract size (\$100,000) X (spot-strike)

 $20*100,000*(.9775-.9825) = -\$10,000 \text{ US} \rightarrow -13,660 \text{ Cdn}\$(10,000*1.366)$

<u>Index contracts</u>: Enter the number of contracts times future value multiplier times spot price less exercise price (strike price).

Example: 50 S&P 500

Calculation: Number of contracts (10) X future value multiplier (\$500) X (spot-strike)

 $10*500*(655.86-659.60) = -18,700 \text{ US} \longrightarrow -25,544 \text{ Cdn} (18,700*1.366)$

<u>Currency</u>: Enter the number of contracts times future value multiplier times spot price less exercise price (strike price).

Example: 20 Mark .6783

Calculation: Number of contracts (20) X future value multiplier (\$125,000) X (spotstrike) $20*125,000*(.6752-.6685) = 16,750 \text{ Marks} \rightarrow 15,075 \text{ Cdn} \$ (16,750*.9)$

For forwards:

Enter the market value in excess of (less than) settlement amount in Cdn\$.

For cash:

Enter the Canadian dollar value of your holdings.

Field 10: Market Price

For equities, enter the market price per share, warrant or right in Cdn\$.

For debts and money market instruments, enter the market price as a percentage of the security's face value

For options, enter the market price times the multiplier in Cdn\$.

For futures, enter market price in Cdn\$.

For forwards, leave this field empty.

For cash, leave this field empty.

Market price should be used to report all holdings of securities. All securities should be converted to Canadian dollars using the exchange rate prevailing at the close of business of the surveyed period. Please indicate any fund not converted into Canadian dollars in the confirmation of funds form.

For equities (including warrants and rights):

For stock listed companies, the market price of your holding should be calculated using the market price prevailing on the stock exchange at the close of the surveyed period.

For unlisted enterprises, if a market price is not available at the close of the business of the surveyed period, estimate the market price of your holding of equity securities by using one of the following methods:

- a recent transaction price;
- director's valuation; or
- net asset value (net asset value is equal to total assets, including intangibles, less non-equity liabilities and the paid up value of non-voting shares. Assets and liabilities should be recorded at current, rather than historical value).

For debts and money market instruments:

Debt securities should be recorded (as a percentage) using one of the market valuation methods listed below:

- a quoted traded market price at the close of the business of the surveyed period;
- the net present value of the expected stream of future payments/receipts associated with the securities:
- for unlisted securities, the price used to value securities for accounting or regulatory purposes, etc.; or
- for discount, deep discount or zero coupon securities, the issue price plus amortisation of the discount.
- Comparative security valuation approach

For options:

For exchange traded options, the market price of your holding is the market price prevailing on the exchange at the close of the surveyed period.

For OTC options and exchange-traded options, if a market price is not available at the close of the business of the surveyed period, estimate the market price of your holding by using one of the following methods:

- a recent transaction price;
- director's valuation

For futures:

For futures, provide the market price. The market price is obtained by taking the spot price of the underlying asset minus the strike price (or exercise price.) As per the example shown in **field 9** for futures, the spot price less the exercise price must be expressed like this: .9775 (spot)-.9825 (exercise) = -.005

For forwards:

Leave this field blank.

For cash:

Leave this field blank.

Field 11: Quantity

For equities (including warrants and rights), enter the number of shares.

For units of pooled, mutual and investment funds, enter the number of units held rounded to the nearest unit.

For debts, enter the face value held in the <u>currency of denomination</u>. For asset-backed securities, enter the remaining face value of principal still outstanding.

For money market instruments, enter the face value at maturity.

For options, and futures, enter the number of contracts.

For forwards, enter the amount receivable at the expiration of the contract in original currency.

For cash, leave this field blank

- Field 12: Average Cost Enter the average cost (historical cost) of the security held.
- Field 13: *Exchange Rate* Enter the exchange rate used to convert the currency of denomination in **field 9**. This rate should be the one prevailing at the close of the surveyed period. Ex: Market value of US stock converted in CDN\$ (**field 9**) over market value of US stock in US\$ denomination currency.
- Field 14: Currency of denomination Currency codes appear in appendix 2.
- Field 15: *Amount on loan* Face value or share units of **field 11** (in Cdn\$) sold under loan repurchase agreements or lent under security lending arrangements.

For debt, enter the face value of field 11 sold under repurchase agreements and security lending arrangements.

For stocks, enter the number of shares of field 11 sold under security lending arrangements.

- Field 16: Country of Issuer Enter the code from **appendix 2** for the country of residence of the issuing entity of the security.
- Field 17: *Issue Date* Enter the original date of issue for this security in the following format: **MMDDYYYY.**
- Field 18: *Maturity Date* Enter the date on which this security matures in the format: **MMDDYYYY.**For a security with a call provision, enter the final maturity date, not the call date.
- Field 19: *Type of coupon* Fixed (F) or Variable (V) Enter "F" for fixed rate or "V" for variable or floating rate.

Field 20: Coupon or Dividend

For bonds enter the annual coupon rate. For variable rate, enter the rate that prevailed at the end of the surveyed period rounded to four decimal places.

For equities, enter the annual value of the dividend.

For zero coupon bonds, enter 0.0000.

Field 21: Status - Enter "D" if security is in default.

Enter "R" when securities acquired under repurchase or security lending arrangements are subsequently sold to a third party.

APPENDIX 1 - SECURITY TYPES

Equity securities = Security type 1

- · ordinary shares;
- stocks (class A, class B);
- depository receipts, e.g., American depository receipts (ADR), should be attributed to the country of residence of the issuer of the security underlying the depository receipt;
- equity securities that have been sold under repurchase agreements; and
- equity securities that have been lent under securities lending arrangement
 - i) Securities acquired under repurchase or securities lending arrangements are to be *excluded* from the report;
 - ii) Securities acquired under repurchase or security lending arrangements and subsequently sold to a third party should indicate it by entering the **letter "R" in item 21.**
- warrants and rights
 - i) subscription rights to securities;
 - ii) subscription or share warrants; and
 - iii) currency warrants

Debt securities (with an original term to maturity of over 1 year) = Security type 2

- bonds, zero coupon or stripped bonds, deep discounted, currency linked (e.g., dual-currency), floating rate, equity related (e.g., convertible bonds, eurobonds);
- asset-backed securities such as mortgage backed bonds, collateralized mortgage obligations (CMO);
- receivable securitization;
- index-linked securities (e.g., property index certificates);
- preference shares (participating, non-participating, convertibles);
- floating rate notes (FRN), such as perpetual notes (PRN), variable rate notes (VRN), structured FRN, reverse FRN, collared FRN, step up recovery FRN (SURF), range/corridor/accrual notes:
- medium term notes:
- Schuldscheine (German) notes, gilt (United Kingdom), O.A.T. (France);
- bonds with optional maturity dates, the latest of which is more than one year to maturity;
- debentures;
- negotiable certificates of deposits with contractual maturity of more than one year;
- other long term securities;

- bearer depository receipts (BDR) denoting ownership of debt securities, should be attributed to the country of residence of the issuer of the security underlying the depository receipt;
- · debt securities that you have sold under repurchase agreements; and
- debt securities that you have lent under a securities lending arrangement
 - i) Securities acquired under repurchase or securities lending arrangements are to be *excluded* from the report;
 - ii) Securities acquired under repurchase or security lending arrangements and subsequently sold to a third party should indicate it by entering the *letter "R" in item 21*.

Money market instruments (with an original term to maturity of less than 1 year) = Security type 3

- bonds, zero coupon or stripped bonds, deep discounted, currency linked (e.g., dual-currency), floating rate, equity related (e.g., convertible bonds, eurobonds);
- asset-backed securities such as mortgage backed bonds, collateralized mortgage obligations (CMO);
- index-linked securities (e.g., property index certificates)
- non-participating preference shares;
- receivable securitization (with less then one year to maturity);
- discount notes;
- commercial paper;
- floating rate notes (FRN), such as perpetual notes (PRN), variable rate notes (VRN), structured FRN, reverse FRN, collared FRN, step up recovery FRN (SURF), range/corridor/accrual notes;
- medium term notes;
- Schuldscheine (German) notes, gilt (United Kingdom), O.A.T. (France);
- bonds with optional maturity dates, the latest of which is less than one year to maturity;
- debentures;
- negotiable certificates of deposits with contractual maturity of less than one year;
- other long term securities (with a remaining term to maturity of less than one year);
- bearer depository receipts (BDR) denoting ownership of debt securities, should be attributed to the country of residence of the issuer of the security underlying the depository receipt;
- debt securities (with a remaining term to maturity of less than one year) that you have sold under repurchase agreements; and
- debt securities (with a remaining term to maturity of less than one year) that you have lent under a securities lending arrangement;
 - i) Securities acquired under repurchase or securities lending arrangements are to be *excluded* from the report;

ii) Securities acquired under repurchase or security lending arrangements and subsequently sold to a third party should indicate it by entering the letter "R" in item 21.

Derivatives

Options = Security Type 4:

Options on stocks, indexes, currency, futures and commodity.

Characteristics

- •Call, Put;
- •Long or short;
- •American or European type.

Futures = Security Type 5:

Futures on currency, indexes, interest rates, metals, petroleum.

Characteristics

•Long or short

Forwards = Security Type 6:

All types of Forwards

Cash = Security Type 7

Cash and other deposits
