**Footnotes**

\* This questionnaire is intended to be completed by **foreign** shipping lines or by firms (agents) which perform a shipping agency function on behalf of foreign operated ocean vessels. Please give all information requested for ships entering ports under your jurisdiction, even if knowledge of their transactions in other ports is not completely known. In the case of tramp and other casual vessels with which you deal, make estimates if necessary.

1 The **operator** of the shipping line is the enterprise that controls the operation and movement of the equipment. The operator is usually responsible for supplying a crew; maintaining equipment in proper working order; and deciding when, and to which location, equipment will be moved. The country of the operator is, in other words, where **the operations are centered**. This location may be different from the flag registration of the vessel operated or it could differ from the country of residence of the ship owner.

2 The other **European Union** countries includes : Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden and since 2007, Bulgaria and Romania.

3 **Other OECD countries** include: Australia, Iceland, Liechtenstein, New Zealand, Switzerland and Turkey.

4 **"Inward"** means to Canada from points outside of Canada. Domestic coast-wise traffic as well as cargo unloaded in Canada destined for the United States is to be excluded. Include estimates of open voyage accounts at December 31 arising from voyages during the year.

5 Where the exact amount of prepaid freight revenue is unknown, please include an estimate to cover.

6 **"Total Expenses"** is intended to include all outpayments in **Canadian ports** whether for outward or inward voyages where you act as agent, e.g. crew wages and advances, harbour charges, pilotage, towage, wharfage, stevedoring (inward and outward when paid by vessels), agency fees, marine navigation services fees, fuel and supplies, repairs, on-payment to rail, truck, water and other carriers on through-traffic if an amount corresponding to the on-payments has automatically been included in the vessels' expenses.

Comments or qualifications about the data reported above.
