; F5-BG-B-GHCF5; 9

The following questions refer to grains in storage on your farm on March 31, 2004.

- Include:
- grains harvested in or prior to 2003;
- grains purchased for animal feed or seed that are not brand name;
- grains owned by someone else but stored on this farm.

Exclude:

- brand name prepared feeds (feed rations) that were purchased (i.e. feed purchased from a local feed store);
- grains owned by the operator but stored off this farm (e.g. elevator, another farm, storage ticket, condominium storage).

IMPORTANT: Oats, Barley and Corn (Fodder Corn) are often harvested as silage or forage. Any crops harvested as silage or forage should not be included as "grains in storage". If the crop was not harvested for grain or if the crop was harvested green to feed the animals, do not record this as "grains in storage".

1. Will you have any grains in storage on your farm on March 31, 2004?

Ÿ^•	Ì€Î	•

Α₩̈́ρΓ

ŒÚÀ 4 LO VÔ CÚÀ U À VÀ U Õ

2. In the table below, indicate the expected quantity in storage on your farm on March 31, 2004.
